

Technicolor Race, Technology, and Everyday Life

By -

NYU Press. Paperback. Book Condition: New. Paperback. 272 pages. Dimensions: 8.8in. x 5.9in. x 0.6in. The cultural impact of new information and communication technologies has been a constant topic of debate, but questions of race and ethnicity remain a critical absence. *Technicolor* fills this gap by exploring the relationship between race and technology. From Indian H-1B Workers and Detroit techno music to karaoke and the Chicano internet, *Technicolor's* specific case studies document the ways in which people of color actually use technology. The results rupture such racial stereotypes as Asian whiz-kids and Black and Latino techno-phobes, while fundamentally challenging many widely-held theoretical and political assumptions. Incorporating a broader definition of technology and technological practices--to include not only those technologies thought to create revolutions (computer hardware and software) but also cars, cellular phones, and other everyday technologies--*Technicolor* reflects the larger history of technology use by people of color. Contributors: Vivek Bald, Ben Chappell, Beth Coleman, McLean Greaves, Logan Hill, Alicia Headlam Hines, Karen Hossfeld, Amitava Kumar, Casey Man Kong Lum, Alondra Nelson, Mimi Nguyen, Guillermo Gomez-Pea, Tricia Rose, Andrew Ross, Thuy Linh Nguyen Tu, and Ben Williams. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
