IVP Books. Paperback. Book Condition: New. Paperback. Dimensions: 8.4in. x 5.8in. x 0.7in. Genesis is a book of origins--the origin of the universe, the origin of life and the origin of man. It places man in his cosmic setting, shows his particular uniqueness, explains his wonder and his flaw, and begins to trace the flow of human history through space and time. Many today, however, view this book as a collection of myths, useful for understanding the Hebrew mind, perhaps, but certainly not a record of what really happened. Dr. Francis A. Schaeffer challenges that view and shows how the first eleven chapters of Genesis stand as a solid, space-time basis for answering the tough questions posed by modern man. Francis August Schaeffer (30 January 1912 - 15 May 1984) was an American Evangelical Christian theologian, philosopher, and Presbyterian pastor. He is most famous for his writings and his establishment of the LAbri community in Switzerland. Opposed to theological modernism, Schaeffer promoted a more historic Protestant faith and a pre-suppositional approach to Christian apologetics which he believed would answer the questions of the age. A number of Christian leaders, authors, and evangelists credit Schaeffers ideas with helping spark the rise of the Christian Right in the United States and were strongly influenced by him. Among them are Operation Rescue founder Randall Terry, Focus on the Family James Dobson, the 700 Clubs Pat Robertson, Prison Fellowships Charles Colson, columnist Cal Thomas, preacher and author Tim LaHaye, former Florida Secretary of State Katherine Harris, and Liberty University and Moral Majority founder Jerry Falwell.
