DIDYMOS REVEALED

Createspace, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.Didymos Revealed delves into such topics as reincarnation, transmigration, vegetarianism and the coming apocalypse. Herein is a commentary on the most popular of the Nag Hammadi scrolls: the papyrus attributed to Didymos Judas Thomas. Using the Gospel of Thomas as its basis, the author provides a commentary that stretches into a world filled with multiple concerns: monetary, ethical and the esoteric. Unlike most books that analyze the Gospel of Thomas - here is a panoramic picture wide enough to include both Hebrew and Coptic traditions. The author's premise is that the Gospel of Thomas is something much more than just another so-called Gnostic gospel - but rather the text provides a window into what the world could-have-been if the Gospel of Thomas did not go missing for some 2000 years. Didymos Revealed examines the world through the lens of mythology - or the study of storytelling traditions throughout the ages. The author, Christopher Kroger, is an alumnus of Immaculata University, Immaculata, Pennsylvania, USA. He first discovered the Nag Hammadi scrolls during a lecture at St. Joseph's University in 1994.
