FARM WATER SUPPLY, VOL. 5 (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Farm Water Supply, Vol. 5 This bulletin has been prepared for distribution among the farmers in what may perhaps still be properly described as the semi-arid districts of Alberta and Saskatchewan, with a view to aiding them in procuring a sufficient domestic water supply to allow of properly carrying on their industry of agriculture. While a good deal of the subject matter deals with questions of a technical nature usually dealt with in technical works, a special endeavour has been made to avoid the use of all technical terms, which might not be readily understood by a farmer and to deal with the subject in a practical common-sense manner, but even so, you may find after you have sized everything up yourself that you want some advice about just what is the best plan, how to go about building a dam, what certain work will cost, or something of this sort. If you do, any enquiry addressed to the Commissioner of Irrigation, Department of the Interior, Calgary, will receive prompt attention, and an earnest endeavour will be made to give you all the assistance possible in helping to solve any of your problems.
